## WELCOME

Dear neighbor:

All of us at Temple University are so proud to have North Philadelphia as the home of our Main Campus and Health Campus and to have you as our neighbor.

I invite you to take part in Temple University's community programs. We offer more than 300 of them! That's why we created this Guide to Community Resources at Temple University. It is your entryway to everything from a job-shadowing program for youths to afterschool programs led by local grandparents.

Are you interested in continuing your education? Check out our Pan-African Studies Community Education Program (PASCEP). PASCEP has been a local institution for more than 40 years, and its new director, Ulicia Lawrence-Oladeinde—a two-time Temple graduate—plans to upgrade its offerings and seek more community input.

Do you need help getting healthy food? Consider our Farm to Families program, which provides fresh fruit, veggies and produce to the families of children who receive pediatric care at Temple Hospital. Temple physicians can refer patients to the program with a "FreshRx prescription"—or, a coupon for discounted food.

If you are interested in entertainment, come to our athletics games. If you live in one of the ZIP codes around our Main Campus and Health Campus, you can purchase half-price tickets to Temple football and basketball games.

I have been at Temple since 1976. That means I've had the privilege of interacting with the residents of this great community and city for more than four decades.

As Temple's new president, I'm committed to having a great relationship with all of our neighbors. I hope you find our community programs fulfilling, helpful and fun.

Sincerely,  
Richard M. Englert  
President, Temple University
